

No Romance & No Rhetoric!

Bronze West Imports, Inc. is a professionally owned and operated bronze sculpture and marble statuary Internet dealer located in Carlsbad, California, a coastal community located just north of San Diego, California. Established in 2003, we started our business with the goal of operating a simple, low cost, warehouse-only business model to ensure that we could economically provide our customers with pristine, affordably-priced bronze sculpture.

Our goal remains unchanged.

We cater to educated and discriminating buyers who want to make informed purchasing decisions when buying bronze sculpture or marble statuary. Our mission is to conduct our business affairs honestly and in a straightforward manner with all of our customers. We do not endorse nor do we use sales tactics, long-winded hyperbole or "gimmicks" in either the presentation of our merchandise or the information or guidance we provide; rather, we believe customers want and value honest and complete information to help them make the best possible choices in their purchases of bronze and marble statuary.

Understanding what you need to make the right buying choices; having the assurance that you're getting the lowest possible price, and having comfort that we will provide you with the proper guidance and support on the care and installation of your bronze sculpture are what make us the preferred choice among bronze sculpture dealers on the Internet.

It's another way we make sure you're buying with confidence at
Bronze West Imports!
