

Project Management Experience

Bronze West Imports, Inc. has been in business since 2003, providing our network of designers, builders and government and public institutions with quality merchandise, top-caliber business support and competitive prices. We are PMP certified professionals capable of working with you and staff to ensure the delivery of timely, effective results on your project, regardless of size or complexity. We are experienced working with professional organizations and have a demonstrated ability to interact comfortably and intelligently with technical engineering and professional staffs. We bring integrity, honesty and an ease and simplicity to our business dealings. Our customers appreciate the value we offer.

Understanding what you need to make the right buying choices; having the assurance that you're getting the lowest possible price, and having comfort that we will provide you and your staff with the proper guidance and support on the care and installation of bronze sculpture are what make Bronze West Imports a preferred vendor among our professional constituents.

We ship to all 50 states in the U.S., Canada and internationally. Our customer base is varied and includes many builders, designers and public and private institutions, including the San Diego Zoo, Hovnanian Homes, the Lefrak Organization, Robert Sharpe & Associates and many prominent individuals and celebrities. Our projects have ranged from single sculpture installations up through our largest project, which was the installation of a virtual "bronze jungle" at the Rancho Sahuarita development in Tucson, AZ which required months of planning and coordination to ensure the safe, timely delivery of 74 sculptures directly on-site. The project, "Safari Park", exceeded all expectations for the client and was the subject of newspaper articles. It has since become a local tourist attraction for residents and visitors to the Tucson area.

We know that each of our customers' purchase decisions are based on unique requirements and circumstances. In response, we have also initiated a special, foundry-direct shipping program to locate and purchase special and unique bronze sculptures not typically offered for sale by U.S. dealers due to the size, cost or uniqueness of the particular sculpture design. Please visit our Direct-ship Bronze Sculpture Gallery, where you'll see over 200 styles of truly special and unique sculptures you're not likely to find elsewhere.

It's another way we make sure you're buying with confidence at
Bronze West Imports!
